SURVEY SERVICES

Surveys have been carried out by JDS Civil Designs & Surveys since 2009

UNDERGROUND SERVICE PROVINGS

JDS Civil Designs & Surveys proposes that where underground service provings becomes necessary, JDS Civil Designs & Surveys will highlight the location of the potential service clashes and organise a quotation from an approved subcontractor (ie. Construction Sciences Pty Ltd) to carry out the nominated proving works. We propose that the subcontractor, once the quote is accepted by Client, will invoice Client directly.

DESIGN SOFTWARE THAT MAY BE USED TO ASSIST WITH DESIGN WORK

- AutoCAD
- Civilcad
- Autoturn
- Geocomp Drainage
- Acrobat / PDF facilities

OHS

JDS Civil Designs & Surveys has a fully documented Health & Safety plan that is used, reviewed and assessed by management and employees

INSURANCE

JDS Civil Designs & Surveys has ensured that Public Liability insurance and Professional Indemnity insurance are in place and meet most Client requirements

CAPACITY

JDS Civil Designs & Surveys ensures that when a proposal is given to a Client for design work, that there is sufficient capacity within the company to carry out the design work to the required standards and time schedules.

JDS Civil Designs & Surveys will therefore endeavor to meet the all deadlines, subject to unforeseen delays arising from any other parties/organizations, service authorities, service proving, community consultation, long council response times and long approval processes from Melbourne Water and/or Vic roads.

Should JDS Civil Designs & Surveys be unable to carry out the design works within the specified times frames, JDS will be honest and specify an alternative time schedule in the initial JDS Civil Designs & Surveys proposal for Client consideration.
